† Not Annualized.

* Class A, Class C and Institutional Class shares of the EIC Value Fund (the "Fund") commenced operations on May 19, 2011, July 18, 2011 and May 1, 2011, respectively.

** Benchmark performance is from commencement date of the class only and is not the commencement date of the benchmark itself.

The performance data quoted represents past performance and does not guarantee future results. The investment return and principal value of an investment in the Fund will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. The table does not reflect the deduction of taxes that a shareholder would pay on Fund distributions or redemption of Fund shares. Current performance may be lower or higher. Performance data current to the most recent month-end may be obtained by calling (855) 430-6487.

The returns shown for Class A shares reflect a deduction for the maximum front-end sales charge of 5.50%. The returns shown for Class C shares reflect a maximum deferred sales charge of 1.00%. All of the Fund's share classes apply a 2.00% fee to the value of shares redeemed within 30 days of purchase. This redemption fee is not reflected in the returns shown above. As stated in the current prospectus dated September 1, 2020, the Fund's "Total Annual Fund Operating Expenses" are 1.26%, 2.01% and 1.01%, and the Fund's "Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement" are 1.22%, 1.97% and 0.97% for Class A shares, Class C shares and Institutional Class Shares, respectively, of the Fund Class' average daily net assets. The ratios may differ from the actual expenses incurred by the Fund for the period covered by this report. Effective September 1, 2020, Equity Investment Corporation (the "Adviser") has contractually agreed to waive or otherwise reduce its annual compensation received from the Fund to the extent necessary to ensure that the Fund's "Total Annual Fund Operating Expenses", excluding taxes, fees and expenses attributable to a distribution or service plan adopted by the FundVantage Trust (the "Trust"), "Acquired Fund Fees and Expenses," interest, extraordinary items and brokerage commissions, do not exceed 0.95% of average daily net assets of the Fund (the "Expense Limitation"). Prior to September 1, 2020, the Expense Limitation was 0.90%. The Expense Limitation will remain in place until August 31, 2021, unless the Board of Trustees ("Board of Trustees") of the Trust approves its earlier termination. Subject to approval by the Board of Trustees, the Adviser may recoup any expenses or fees it has reimbursed within a three-year period from

the date on which the Adviser reduced its compensation and/or assumed expenses of the Fund. The Adviser is permitted to seek reimbursement from the Fund, subject to certain limitations, for fees it waived and Fund expenses it paid to the extent the total annual fund operating expenses do not exceed the limits described above or any lesser limits in effect at the time of reimbursement. No recoupment will occur unless the Fund's expenses are below the Expense Limitation amount. Total returns would be lower had such fees and expenses not been waived and/or reimbursed.

Mutual fund investing involves risk, including possible loss of principal. Value investing involves the risk that the Fund's investing in companies believed to be undervalued will not appreciate as anticipated. The Fund may invest in the stocks of smaller- and medium-sized companies which may be more vulnerable to adverse business or economic events than larger, more established companies.

The Fund intends to evaluate performance as compared to that of the Standard & Poor's 500 ("S&P 500®") Index and the Russell 3000® Value Index. The S&P 500® Index is a widely recognized, unmanaged index of 500 common stocks which are generally representative of the U.S. stock market as a whole. The Russell 3000® Value Index is an unmanaged index that measures the performance of the broad value segment of the U.S. equity value universe. It includes those Russell 3000® Index companies with lower price-to-book ratios and lower forecasted growth rates.

Fund Expense Disclosure October 31, 2020 (Unaudited)

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs including sales charges (loads) on purchase payments (if any) or redemption fees; and (2) ongoing costs, including management fees, distribution and/or service (Rule 12b-1) fees (if any) and other Fund expenses. These examples are intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

These examples are based on an investment of \$1,000 invested at the beginning of the six-month period from May 1, 2020 through October 31, 2020 and held for the entire period.

Actual Expenses

The first line of each accompanying table provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

Hypothetical Examples for Comparison Purposes

The second line of each accompanying table provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not your Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare these 5% hypothetical examples with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the accompanying tables are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads) on purchase payments (if any) or redemption fees. Therefore, the second line of each accompanying table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

EIC VALUE FUND

Notes to Financial Statements October 31, 2020 (Unaudited)

1. Organization and Significant Accounting Policies

The EIC Value Fund (the “Fund”) is a diversified, open-end management investment company registered under the Investment Company Act of 1940, as amended (the “1940 Act”), which commenced operations on May 1, 2011. The Fund is a separate series of FundVantage Trust (the “Trust”) which was organized as a Delaware statutory trust on August 28, 2006. The Trust is a “series trust” authorized to issue an unlimited number of separate series or classes of shares of beneficial interest. Each series is treated as a separate entity for certain matters under the 1940 Act, and for other purposes, and a shareholder of one series is not deemed to be a shareholder of any other series. The Fund offers separate classes of shares: Class A, Class C, Institutional Class and Retail Class shares. Class A shares are sold subject to a front-end sales charge of 5.50%. Front-end sales charges may be reduced or waived under certain circumstances. A contingent deferred sales charge (“CDSC”) may be applicable to the redemption of Class A shares. A CDSC, as a percentage of the lower of the original purchase price or net asset value at redemption, of up to 1.00% may be imposed on full or partial redemptions of Class A shares made within eighteen months of purchase where: (i) \$1 million or more of Class A shares were purchased without an initial sales charge, and (ii) the Fund’s principal underwriter, Foreside Funds Distributors LLC (the “Underwriter”), paid a commission to the selling broker-dealer for such sale. A CDSC of up to 1.00% is assessed on redemptions of Class C Shares made within eighteen months after a purchase where the broker-dealer was paid a commission for such sale. As of October 31, 2020, the Retail Class Shares have not been issued.

The Fund is an investment company and follows accounting and reporting guidance in the Financial Accounting Standards Board Accounting Standards Codification Topic 946.

Portfolio Valuation — The Fund’s net asset value (“NAV”) is calculated once daily at the close of regular trading hours on the New York Stock Exchange (“NYSE”) (typically 4:00 p.m. Eastern time) on each day the NYSE is open. Securities held by the Fund are valued using the closing price or the last sale price on a national securities exchange or the National Association of Securities Dealers Automatic Quotation System (“NASDAQ”) market system where they are primarily traded. Equity securities traded in the over-the-counter (“OTC”) market are valued at their closing prices. If there were no transactions on that day, securities traded principally on an exchange or on NASDAQ will be valued at the mean of the last bid and ask prices prior to the market close. Investments in other open-end investment companies are valued based on the NAV of the investment companies (which may use fair value pricing as discussed in their prospectuses). If market quotations are unavailable or deemed unreliable, securities will be valued in accordance with procedures adopted by the Trust’s Board of Trustees (“Board of Trustees”). Relying on prices supplied by pricing services or dealers or using fair valuation may result in values that are higher or lower than the values used by other investment companies and investors to price the same investments. In the event that market quotes are not readily available, and the security or asset cannot be valued pursuant to one of the valuation methods, the value of the security or asset will be determined

EIC VALUE FUND

Notes to Financial Statements (Continued) October 31, 2020 (Unaudited)

in good faith by the Adviser. The Trust has established a Valuation Committee which performs certain functions including the oversight of the Adviser's fair valuation determinations.

Fair Value Measurements — The inputs and valuation techniques used to measure fair value of the Fund's investments are summarized into three levels as described in the hierarchy below:

- Level 1 — quoted prices in active markets for identical securities;
- Level 2 — other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.); and
- Level 3 — significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. Transfers in and out are recognized at the value at the end of the period.

The following is a summary of the inputs used, as of October 31, 2020, in valuing the Fund's investments carried at fair value:

	Total Value at 10/31/20	Level 1 Quoted Prices	Level 2 Other Significant Observable Inputs	Level 3 Significant Unobservable Inputs
Common Stocks*	\$ 113,206,116	\$ 113,206,116	\$ —	\$ —
Short-Term Investment*	12,636,145	12,636,145	—	—
Total Investments	\$ 125,842,261	\$ 125,842,261	\$ —	\$ —

* Please refer to Portfolio of Investments for further details on portfolio holdings.

At the end of each quarter, management evaluates the classification of Levels 1, 2 and 3 assets and liabilities. Various factors are considered, such as changes in liquidity from the prior reporting period; whether or not a broker is willing to execute at the quoted price; the depth and consistency of prices from third party pricing services; and the existence of contemporaneous, observable trades in the market. Additionally, management evaluates the classification of Level 1 and Level 2 assets and liabilities on a quarterly basis for changes in listings or delistings on national exchanges.

Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of the Fund's investments may fluctuate from period to period. Additionally, the fair value of investments may differ significantly from the values that would have been

EIC VALUE FUND

Notes to Financial Statements (Continued) October 31, 2020 (Unaudited)

used had a ready market existed for such investments and may differ materially from the values the Fund may ultimately realize. Further, such investments may be subject to legal and other restrictions on resale or are otherwise less liquid than publicly traded securities.

For fair valuations using significant unobservable inputs, U.S. generally accepted accounting principles (“U.S. GAAP”) require the Fund to present a reconciliation of the beginning to ending balances for reported market values that present changes attributable to total realized and unrealized gains or losses, purchase and sales, and transfers in and out of Level 3 during the period. A reconciliation of Level 3 investments is presented only when the Fund had an amount of Level 3 investments at the end of the reporting period that was meaningful in relation to its net assets. The amounts and reasons for all transfers in and out of each Level within the three-tier hierarchy are disclosed when the Fund had an amount of total transfers during the reporting period that was meaningful in relation to its net assets as of the end of the reporting period.

For the six months ended October 31, 2020, there were no transfers in or out of Level 3.

Use of Estimates — The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates and those differences could be material.

Investment Transactions, Investment Income and Expenses — Investment transactions are recorded on trade date for financial statement preparation purposes. Realized gains and losses on investments sold are recorded on the identified cost basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Estimated components of distributions received from real estate investment trusts may be considered income, return of capital distributions or capital gain distributions. Return of capital distributions are recorded as a reduction of cost of the related investments. Distribution (12b-1) fees and shareholder services fees relating to a specific class are charged directly to that class. Fund level expenses common to all classes, investment income and realized and unrealized gains and losses on investments are allocated to each class based upon relative daily net assets of each class. General expenses of the Trust are generally allocated to each fund under methodologies approved by the Board of Trustees. Expenses directly attributable to a particular fund in the Trust are charged directly to that fund.

Dividends and Distributions to Shareholders — Dividends from net investment income and distributions from net realized capital gains, if any, are declared, recorded on ex-date and paid at least annually to shareholders. Income dividends and capital gain distributions are determined in accordance with U.S. federal income tax regulations, which may differ from U.S. GAAP.

EIC VALUE FUND

Notes to Financial Statements (Continued) October 31, 2020 (Unaudited)

U.S. Tax Status — No provision is made for U.S. income taxes as it is the Fund's intention to continue to qualify for and elect the tax treatment applicable to regulated investment companies under Subchapter M of the Internal Revenue Code of 1986, as amended (the "Internal Revenue Code"), and make the requisite distributions to its shareholders which will be sufficient to relieve it from U.S. income and excise taxes.

Other — In the normal course of business, the Fund may enter into contracts that provide general indemnifications. The Fund's maximum exposure under these arrangements is dependent on claims that may be made against the Fund in the future, and therefore, cannot be estimated; however, based on experience, the risk of material loss for such claims is considered remote.

Market disruptions associated with the COVID-19 pandemic have had a global impact, and uncertainty exists as to its long-term implications. The COVID-19 pandemic could adversely affect the value and liquidity of the Fund's investments, impair the Fund's ability to satisfy redemption requests, and negatively impact the Fund's performance. In addition, the outbreak of COVID-19, and measures taken to mitigate its effects, could result in disruptions to the services provided to the Fund by its service providers. Fund management is continuing to monitor this development and evaluate its impact on the Fund.

2. Transactions with Related Parties and Other Service Providers

Equity Investment Corporation ("EIC" or the "Adviser") serves as investment adviser to the Fund pursuant to an investment advisory agreement with the Trust (the "Advisory Agreement"). For its services, the Adviser is paid a monthly fee at the annual rate of 0.75% of the Fund's average daily net assets up to \$500 million; 0.65% of the Fund's average daily net assets of \$500 million or more but less than \$1 billion; and 0.50% of the Fund's average daily net assets of \$1 billion and over. Effective September 1, 2020, the Adviser has contractually agreed to waive or otherwise reduce its annual compensation received from the Fund to the extent necessary to ensure that the Fund's "Total Annual Fund Operating Expenses", excluding taxes, fees and expenses attributable to a distribution or service plan adopted by the Trust, "Acquired Fund Fees and Expenses," interest, extraordinary items and brokerage commissions, do not exceed 0.95% of average daily net assets of the Fund (the "Expense Limitation"). Prior to September 1, 2020, the Expense Limitation was 0.90%. The Expense Limitation will remain in place until August 31, 2021, unless the Board of Trustees approves its earlier termination. Subject to approval by the Board of Trustees, the Adviser may recoup any expenses or fees it has reimbursed within a three-year period from the date on which the Adviser reduced its compensation and/or assumed expenses of the Fund. The Adviser is permitted to seek reimbursement from the Fund, subject to certain limitations, for fees it waived and Fund expenses it paid to the extent the total annual fund operating expenses do not exceed the limits described above or any lesser limits in effect at the time of reimbursement. No recoupment will occur unless the Fund's expenses are below the Expense Limitation amount.

5. Federal Tax Information

The Fund has followed the authoritative guidance on accounting for and disclosure of uncertainty in tax positions, which requires the Fund to determine whether a tax position is more likely than not to be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. The Fund has determined that there was no effect on the financial statements from following this authoritative guidance. In the normal course of business, the Fund is subject to examination by federal, state and local jurisdictions, where applicable, for tax years for which applicable statutes of limitations have not expired.

For the year ended April 30, 2020, the tax character of distributions paid by the Fund was \$3,190,381 of ordinary income dividends and \$11,662,903 of long-term capital gains dividends. Distributions from net investment income and short-term gains are treated as ordinary income for federal income tax purposes.

EIC VALUE FUND

Notes to Financial Statements (Concluded) October 31, 2020 (Unaudited)

As of April 30, 2020, the components of distributable earnings on a tax basis were as follows:

<u>Undistributed Ordinary Income</u>	<u>Net Unrealized Appreciation</u>	<u>Qualified Late-Year Losses</u>	<u>Total Distributable Earnings</u>
\$738,614	\$18,293,542	\$(116,743)	\$18,915,413

The differences between the book and tax basis components of distributable earnings relate primarily to the timing and recognition of income and gains for federal income tax purposes.

As of October 31, 2020, the federal tax cost, aggregate gross unrealized appreciation and depreciation of securities held by the Fund were as follows:

Federal tax cost*	<u>\$107,668,803</u>
Gross unrealized appreciation.	\$ 22,788,009
Gross unrealized depreciation.	<u>(4,614,551)</u>
Net unrealized appreciation.	<u>\$ 18,173,458</u>

* Because tax adjustments are calculated annually at the end of the Fund's fiscal year, the above table does not reflect tax adjustments for the current fiscal year. For the previous year's federal income tax information, please refer to the Notes to Financial Statements section in the Fund's most recent annual report.

Pursuant to federal income tax rules applicable to regulated investment companies, the Fund may elect to treat certain capital losses between November 1 and April 30 and late year ordinary losses ((i) ordinary losses between January 1 and April 30, and (ii) specified ordinary and currency losses between November 1 and April 30) as occurring on the first day of the following tax year. For the year ended April 30, 2020, any amount of losses elected within the tax return will not be recognized for federal income tax purposes until May 1, 2020. For the year ended April 30, 2020, the Fund had short-term capital loss deferrals of \$5,727,692 and long-term capital gain deferrals of \$5,610,949.

Accumulated capital losses represent net capital loss carry forwards as of April 30, 2020 that may be available to offset future realized capital gains and thereby reduce future capital gains distributions. As of April 30, 2020, the Fund did not have any capital loss carryforwards.

6. Subsequent Events

Management has evaluated the impact of all subsequent events on the Fund through the date the financial statements were issued, and has determined that there are no subsequent events requiring recognition or disclosure in the financial statements.

Statement Regarding Liquidity Risk Management Program (Unaudited)

The Securities and Exchange Commission adopted Rule 22e-4 under the Investment Company Act of 1940, as amended (the “Liquidity Rule”) to promote effective liquidity risk management throughout the open-end investment company industry, thereby reducing the risk that funds will be unable to meet their redemption obligations and mitigating dilution of the interests of fund shareholders.

The Board of Trustees (the “Board”) of FundVantage Trust, on behalf of the EIC Value Fund (the “Fund”), met on September 22-23, 2020 (the “Meeting”) to review the liquidity risk management program (the “Program”) applicable to the Fund, pursuant to the Liquidity Rule. The Board has appointed a committee of individuals to serve as the program administrator for the Fund’s Program (the “Program Committee”). At the Meeting, the Program Committee provided the Board with a report that addressed the operation of the Program and assessed its adequacy and effectiveness of implementation and any material changes to the Program as of June 30, 2020 (the “Report”).

The Report described the Program’s liquidity classification methodology. It also described the Program Committee’s methodology in determining whether a Highly Liquid Investment Minimum (a “HLIM”) is necessary and noted that, given the composition of the Fund’s portfolio holdings, a HLIM was not currently required for the Fund.

The Report noted that the Program complied with the key factors for consideration under the Liquidity Rule for assessing, managing and periodically reviewing liquidity risk, as follows:

A. The Fund’s investment strategy and liquidity of Fund investments during both normal and reasonably foreseeable stressed conditions: As part of the Report, the Program Committee reviewed the Fund’s strategy and its determination that the strategy remains appropriate for an open-end fund structure. This determination was based on the Fund’s holdings of Highly Liquid Investments, the diversification of holdings and the related average position size of the holdings.

B. Short-term and long-term cash flow projections during both normal and reasonably foreseeable stressed conditions: As part of the Report, the Program Committee reviewed historical net redemption activity and noted that it used this information as a component to establish the Fund’s reasonably anticipated trading size. The Fund has adopted an in-kind redemption policy which may be utilized to meet larger redemption requests. The Program Committee also took into consideration the Fund’s shareholder ownership concentration and the fact that shares of the Fund are offered through intermediaries. The intermediary agreements increase the likelihood of large unanticipated redemptions, meaning a Fund may not have the ability to conduct an orderly sale of portfolio securities. The amount of assets a Fund has on these platforms is a significant factor in the ability of the Fund to meet redemption expectations. In light of the Fund’s holdings, it was noted that the Fund maintains a high level of liquidity to meet shareholder redemptions under both normal and stressed market conditions.

EIC VALUE FUND

Statement Regarding Liquidity Risk Management Program (Concluded) (Unaudited)

C. Holdings of cash and cash equivalents, as well as borrowing arrangements: As part of the Report, the Program Committee reviewed any changes in the Fund's cash and cash equivalents positions in response to current/anticipated redemption activity or market conditions. It was noted that the Fund does not currently have a borrowing or other credit funding arrangement.
